SUMMARY

I am the owner of Web Dev Technology
Full Stack web developer and mobile application developer
I have eight years of experience and I also have many projects
And I have many skills as shown in my CV .

EXPERIENCE

Web programmer, 05/2021 - Current
krogarna.se - Istanbul, Sweden

- I designed and programmed a complete educational website for a company to sell this website as copies
The site is three dashboards for the manager, companies and students
I have also added payment gateways to the site
The site linked it to a connection between WordPress
And I programmed an API that specializes in professional and regular versions
-
- Completed assigned tasks and reached targets working solely in remote working capacity.
- Coded backend services using [\[Software\]](#).
- Communicated with engineering staff to evaluate software hardware interfaces and develop specifications and performance requirements.
- Estimated project scope and worked with PM team to forecast milestones and timelines.

Mobile applications, 02/2021 - Current
krav - Istanbul, Sweden

- I designed and programmed a complete mobile app
The app is an educational website
I also linked to my dad's web site
- Participated in initial concept, design and release to fulfill complete lifecycle of application.
- Restored software to normal operations by performing troubleshooting methods to scan, detect and rectify bugs and errors.
- Wrote and created clean, readable and testable code to assure verifiability of components.
- Collaborated with marketing teams to create marketing campaigns and promote applications.
- Created APIs to grow and maintain mobile app platform and provide accessibility for different applications.
